Municipal political parties have allowed real estate capitalists and large property owners to take control of land, housing, and major decisions at Montreal City Hall.

## EXPROPRIATE AND TAX PROFITEERS TO CONTROL OUR CITY

- Expropriate vacant or substandard housing and strategic land.
- Tax large property owners and multinational corporations, such as grocery stores.

## TO BUILD NEIGHBORHOODS THAT MEET REAL NEEDS

- Establish public control over the housing construction sector and municipal planning.
- Build 50,000 public housing units.
- Freeze rents and reduce them to less than 20% of household income.
- Guarantee free, frequent, and safe public transportation.
- Create public cafeterias and food markets managed by the city.

**The working class must directly confront the interests of the ultra-rich in order to tax and expropriate them. Electing a socialist like Rosalie will be an important step in building the movement necessary to win.**
